Believers Academy for Academic and Behavioral Development is a special education day treatment program designed for children who have behavioral or emotional difficulties in regular academic classroom settings.

Believers Academy for Academic and Behavioral Development services identified and non-identified special education students in grades K-12.

Our program is designed to provide therapeutic solutions for area youth who require special needs services that teach youth to manage anger, control aggression and correlate how these social emotional life skills will positively impact their future.

Instilling a sense of  
Educational Value

"Believers Achieve Dreams"

### Helping Students Achieve Dreams

#### Core Competencies

- Day Treatment Program (8:30 a.m.-2:30 p.m.)
  - For students experiencing behavioral/emotional problems.
  - 2 staff per 10 student ratio.
  - Individual IEP's developed for each student.
- Evening School (3:00 p.m.-7:00 p.m.)
  - For students experiencing behavioral/emotional problems.
  - Individual IEP's developed for each student.
  - J.O.B.S. Program
  - Entrepreneurship Training
  - Small group settings for individualized instruction..
  - Plato Learning Technology Software

A computer technology course will be part of the daily curriculum, teaching the necessary skills to operate and complete schoolwork on computers, while ensuring that every student becomes comfortable in working with technology. This aspect of the program is the first step in narrowing the so-called "digital divide gap" which faces the disadvantaged youth of our society.

Through collaborative efforts with the local social service agencies our program provides therapeutic services to students and families to improve their quality of life.

#### Stay the Course

*The ship of life sails at sea in search of life.*

*As captains of our fate, we must steer the course confident our inner compass will always be true.*

*The seas will be stormy, but stay the course.*

*Your scope will view danger, but stay the course.*

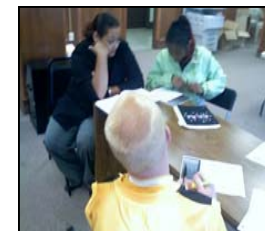

*You will be tempted to change directions, but stay the course.*

*Your crew may threaten mutiny, but stay the course.*

*Stay the course, and you will land on an island  
Where no one else has landed*

*It is there you will build your paradise.*

George C. Fraser

**Little by little, step by step,  
day by day, dream by  
dream— you'll get there.**
